Feeding of tanks from the High Level Kattalai Channel

* 219 Q.—SRI G. ANNAMALAI MUTHURAJA : Will the Hon. the Minister for Works be pleased to state—

(a) whether there is any proposal under consideration to feed the important tanks for irrigation on the southern side within the reach of 40 miles of the New Kattalai High Level Channel which is under excavation in Tiruchirappalli district; and

(b) if not, the reasons therefor?

THE HON. SRI P. KAKKAN : (a) No, Sir.

(b) The reasons are (i) the new channel runs in contour and almost parallel and close to the existing High Level Canal with a common bank for the first 40 miles. (ii) Being a contour channel, irrigation is possible only on the northern side of the new channel which is now served by the existing Kattalai High Level Channel. On the southern side, levels of the ground are rising and the lands lie on the off-side of irrigation.

SRI S. LAZAR : எங்கெங்கு வெவல் பர்மிட் செய்யுமோ அந்தக் குளங்களுக்காவது தண்ணீர் கொடுக்க அரசாங்கம் நடவடிக்கை எடுக்குமா?

THE HON. SRI P. KAKKAN : இப்பொழுது ஒன்றும் சொல்லுவதற்கில்லை. ஏற்கனவே போடப்பட்டிருக்கும் திட்டத்தைப் பொறுத்து, பின்னர் தான் இது கவனிக்கப்படும்.
